To Whom It May Concern

I am writing this letter to offer my highest recommendation for Giulia concerning her internship program in St Joseph Hospital Mbweni, Tanzania, East Africa. My name is Dr Ambrose Isaac Temu (MD MME in General Surgery also a hospital Director. I was a part of clinical instructor during the internship of Giulia in our Hospital for three months (July to September) 2017. She consistently delivered the highest quality patient care. She possessed superlative critical thinking abilities, way beyond the expected level of intern nurse student. She was also very caring, gentle, compassionate, conscientious, and professional at all times. She was a natural leader on the floor and a positive influence in the clinical group. She was enthusiastic, focused, and eager to learn, displayed great initiative, and was an effective team player. Without question, she demonstrates outstanding nursing potential and would make an excellent addition to your healthcare team.

She was nice to co workers and everybody wanted to work with her. She was punctual and gets the work organized. Though we have culture diversity but she fitted in every situation. She was quick to learn the local patient language in verbal and non verbal. She declares no academic difficulties in communication skills. Our organization wished if she could stay more or get a permanent employment. I encourage you to never stop learning. Please assist her carrier as she going to make a good nurse

Yours sincerely,

Dr Ambrose Isaac Temu (MD,MMED Surgery)

Hospital Director

St Joseph Hospital Mbweni
